Banking Security Since 1867, U.S.A.

Mosler®

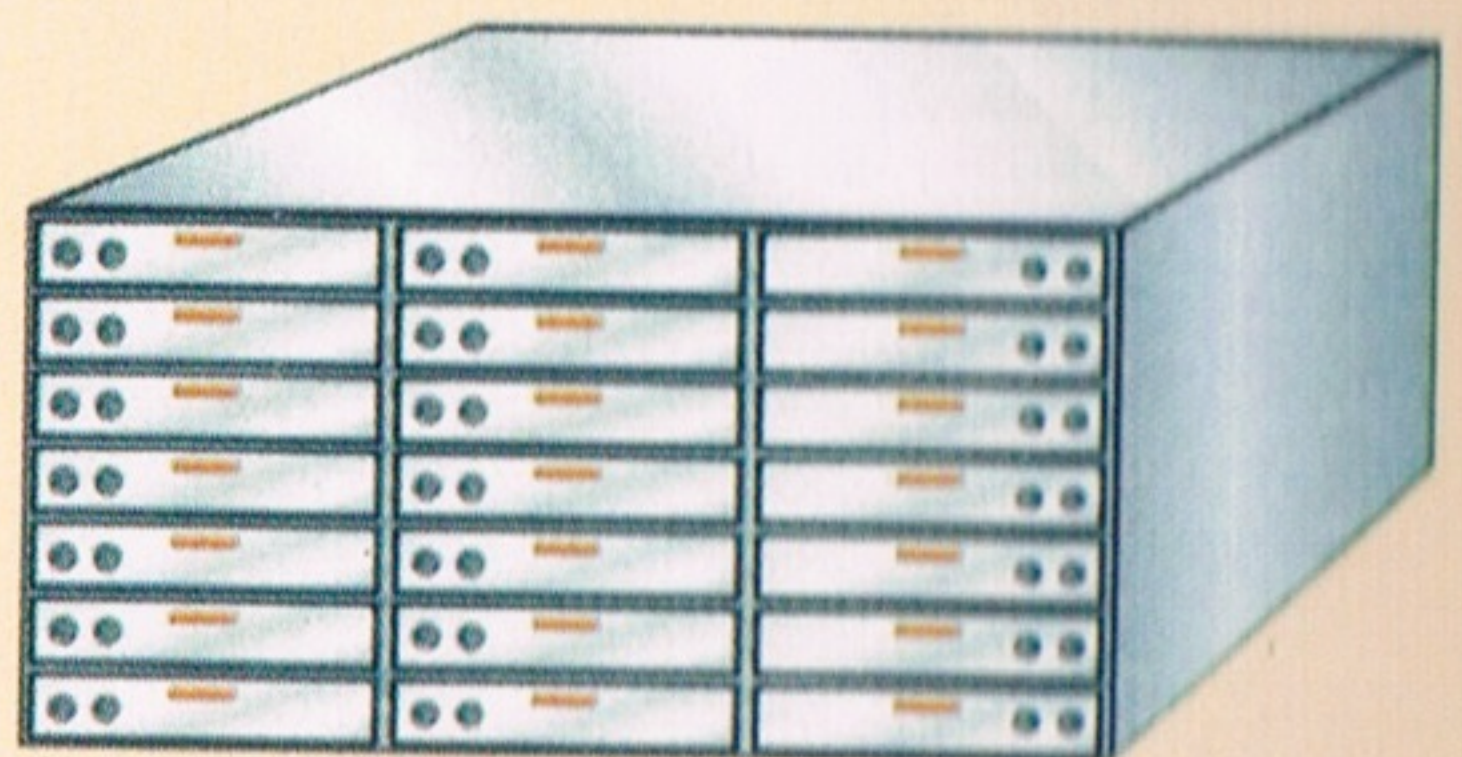

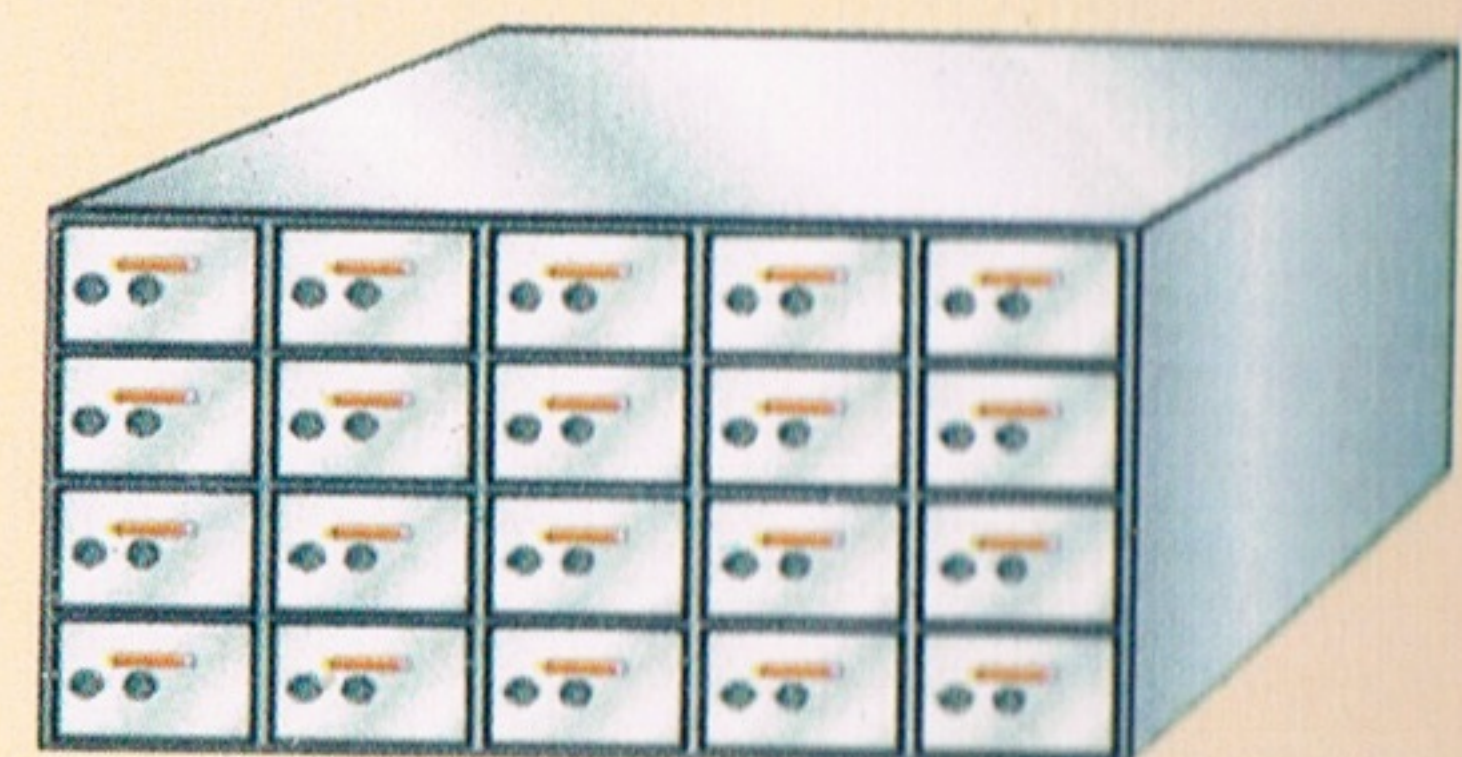

Mosler keep your costumers' valuable property with security.

In the course of trying to acquire new customers and stabilize the banking transactions with customers, safe deposit boxes service is rapidly playing a more significant roll in the customer services. Safe deposit box vaults which protect the valuables of customers are required to be a High Security Area, free from any kind of attacks and disaster with regards to functions as well as facilities.

Mosler, taking into consideration seriously and sufficiently the entrusted responsibility, consolidates here the technical know-how, accumulated for long years, of physical security equipment. We feel confident that Mosler Safe Deposit Box and related equipment will help the mutual reliability build up and be reinforced between your bank and customers.

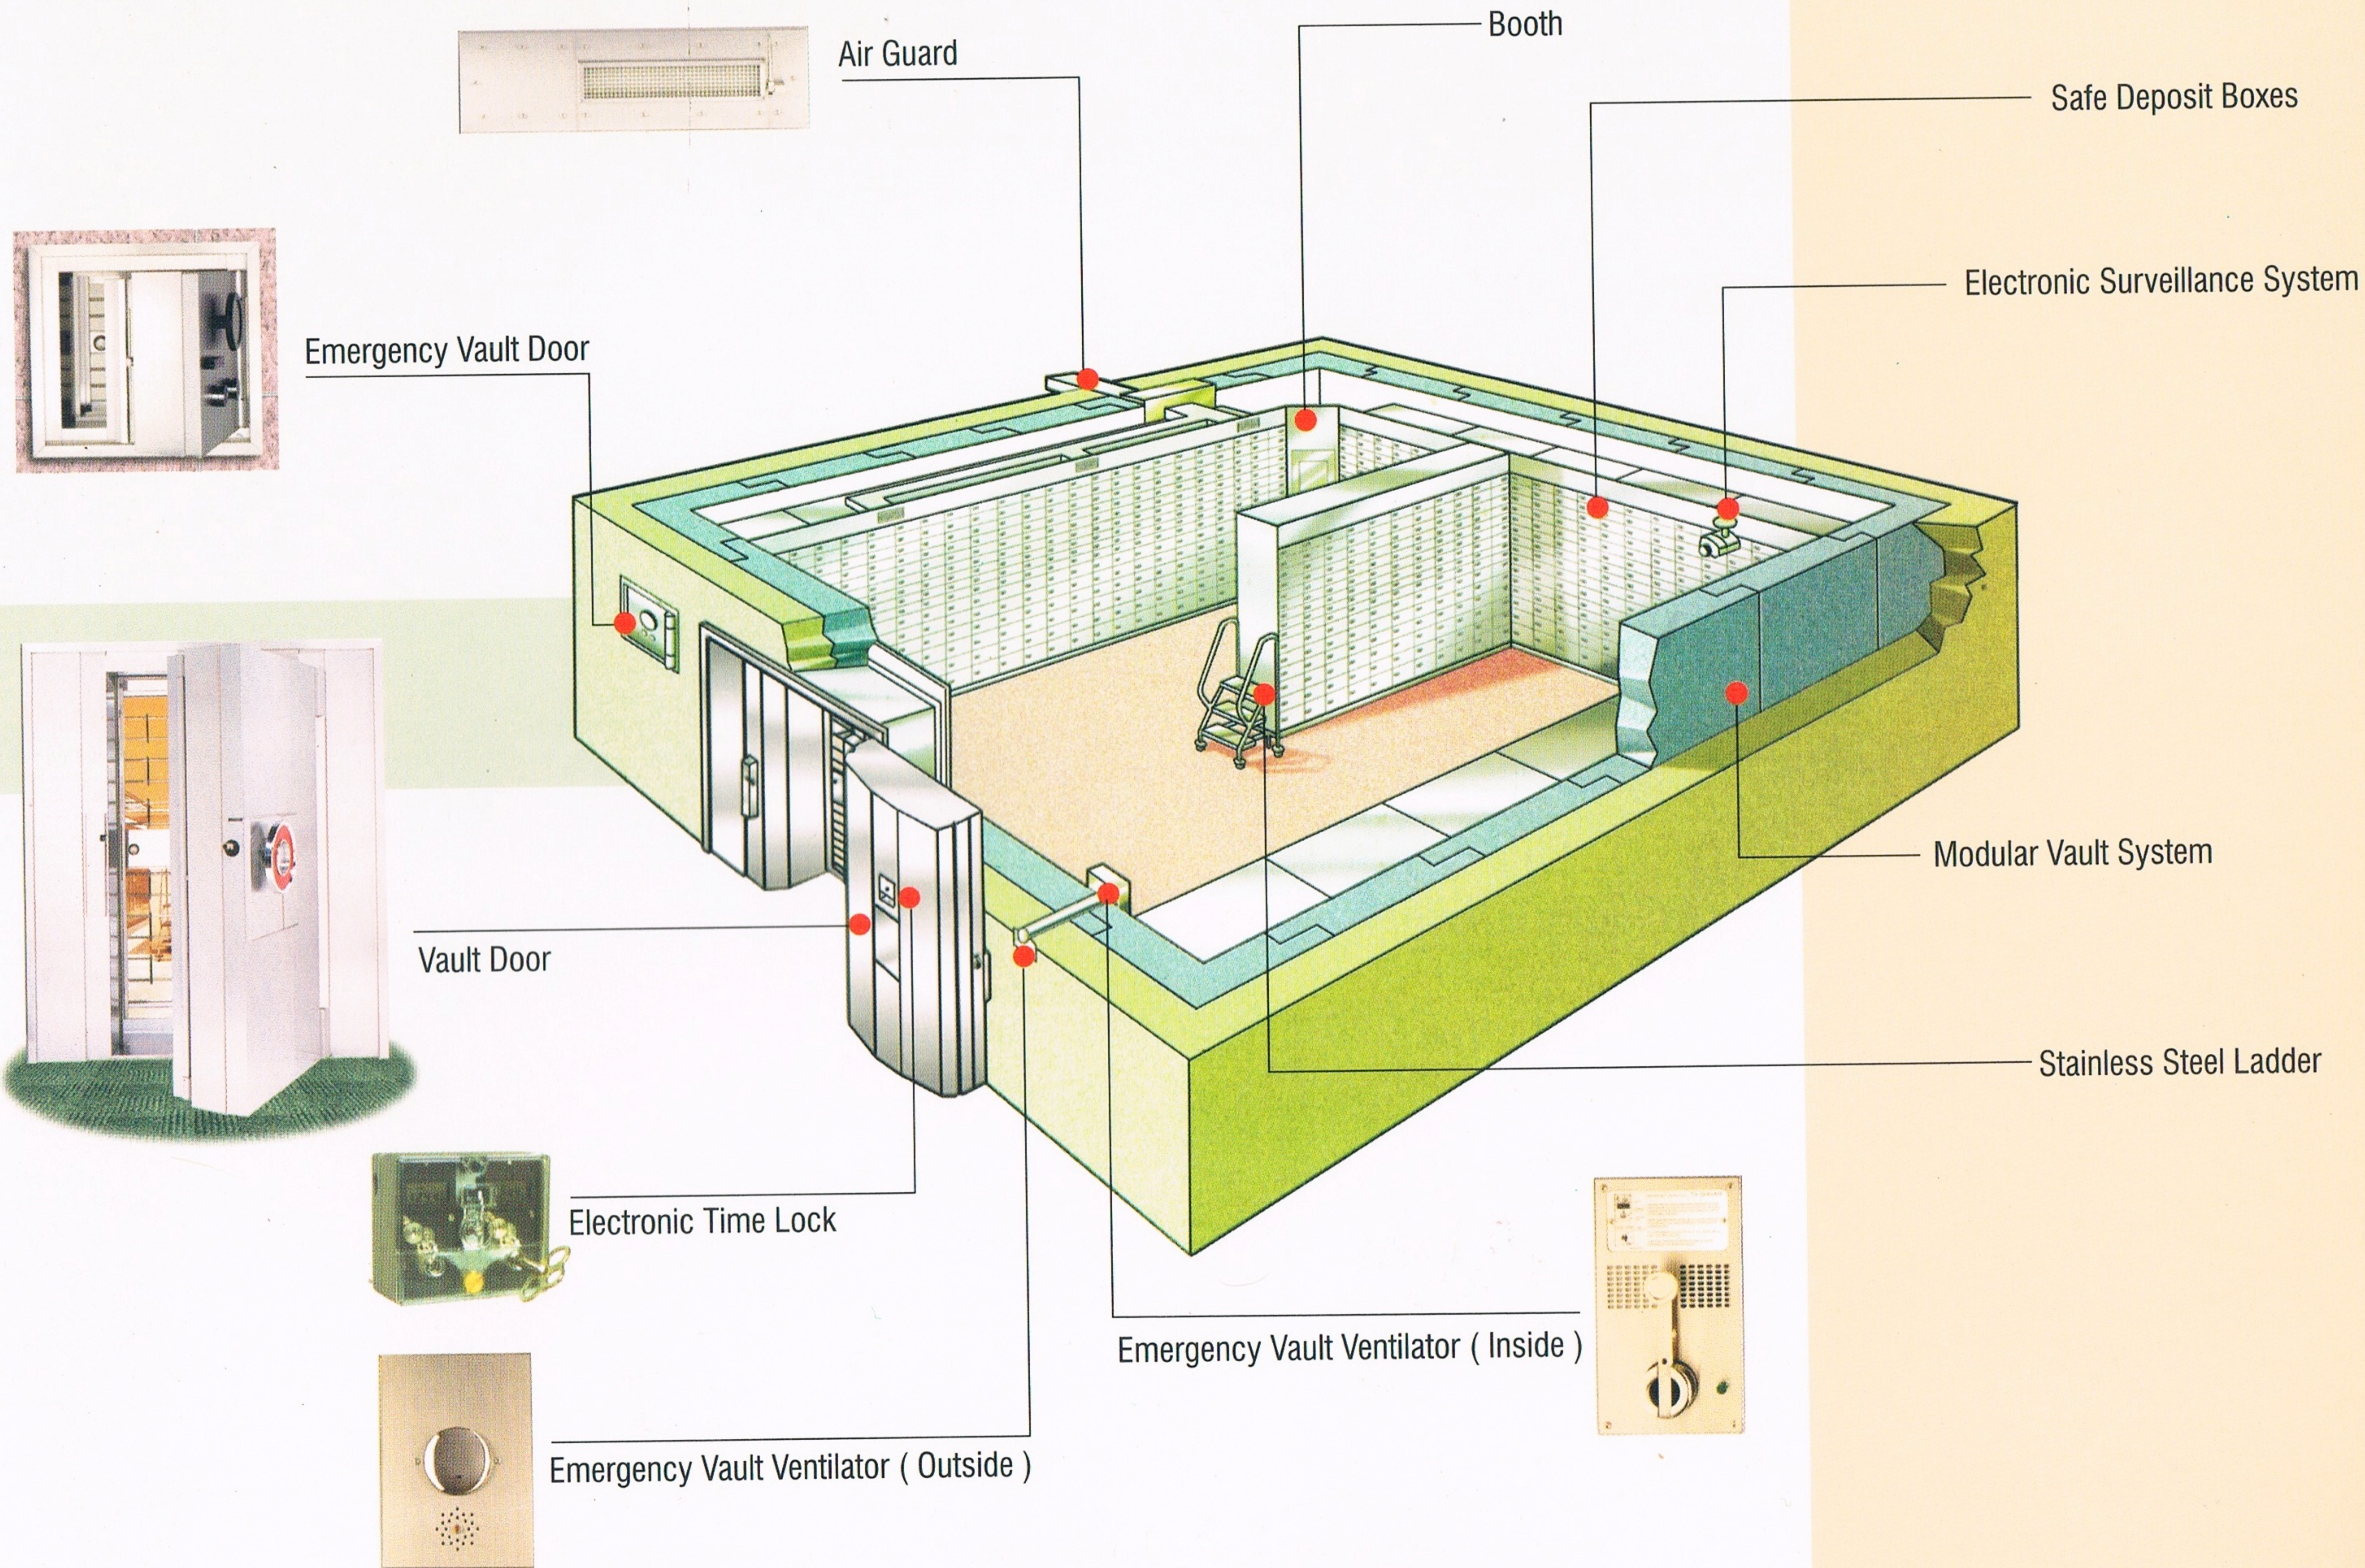

CONCEALED HINGE SAFE DEPOSIT BOXES

• A wide variety of module sizes for choices.
