

Mosler®

The American Bank Safe

Banking Security System Since 1867, U.S.A.

Mosler®

The American Bank Safe

The **Mosler**® Safe is specially designed to exceed U. L. listed requirements for banks, offices and private homes for the protection of important documents, cash and valuable against burglary and fire.

Every **Mosler**® Safe is insulated with specially formulated "**Superloy**" (U. L. Listed) ensuring six sided total protection. Extensive laboratory testing has proven **SUPERLOY**'s effectiveness against all attack methods that must be prevented such as oxyacetylene cutting torch, abrasive wheels, impact hammers and hammer drills, carbide drills, hole saws, circular saws, and all commonly used hammers and tools. In addition, the **Mosler**® Safe is reinforced with **anti drill plate** installed on the area of locking mechanism for additional protection.

LOCKING SYSTEM

1. Each safe comes with **one U. L. listed 4-wheel Combination Lock (100.000.000 changes)** and **one U. L. listed 7-lever high security key lock**.
2. A **Relocking Device**, a system that automatically deadlocks the door in the event of drill or tool attack on the lock.
3. In addition to movable locking bar on the lock side, the **Mosler**® Safe is specially designed with **fixed interlock bar** located on the hinge side which holds the door in closed position against all forms of attacks.

SPECIFICATION

	ABS 1	ABS 2	ABS 3	ABS 4
OUTSIDE DIMENSION	6080	7080	8080	9080
HEIGHT	900	1.200	1.500	1.750
WIDTH	700	700	750	800
DEPTH	700	700	800	800
INSIDE DIMENSION				
HEIGHT	650	950	1.200	1.450
WIDTH	520	520	550	600
DEPTH	480	480	550	550
WEIGHT (KG)	600	800	1.500	1.750
CAPACITY (mm ³)	160	240	360	480

Mosler[®]

Fireproof Filing Cabinet

Banking Security System Since 1867, U.S.A.

Mosler[®]

Fireproof Filing Cabinet

Having over 135 years experience, **Mosler®** is one of the pioneer producers of reliable banking security products, sustained by a balance technology of design and utilization of high quality materials.

Mosler® Fireproof Filing Cabinets are designed with **special insulation materials** to meet the high performance of international fire protection requirements. The products have been tested against fire and collision.

CONSTRUCTION

1. The body is made of **high quality** and **rust-resistant steel** material. Composed with **Mosler®'s special formula** that functioned as a heat conductor for the inner space of the cabinet.
2. **A heavy-duty suspension rollers system** helps ensure the smooth opening of each (heavy loaded) drawer and provides a maximum safety protection for the content.

LOCKING SYSTEM

1. **Mosler®** Fireproof Filing Cabinet is set with **one U.L. Listed 3-wheel Combination Lock (1.000.000 changes)** on top drawer and **one high security key-lock** to control on all drawers.
2. Each drawer can be equipped with a **special cylinder key-lock** in order to be operated individually. (Optional).
